Bluedfield—Grat Bowen's wild gander is dead. In the absence of official record, it is estimated that this goose has reached the century mile stone. This old gander was captured on a pond in Burke's garden 25 years ago and it was a very wild goose at that time. Some of the pioneers guessed the gander's age at 75 when it was 'caught'. The old fowl flew in over Burke's garden with a gang of wild geese, was winged and captured and some years later was purchased by Grat Bowen's father.

Uniontown—A lock and dam system for the little Kanawha river will be projected at the next session of the United States congress. It was declared here by Geo. W. Johnson, congressman from the fourth congressional district of West Virginia. The Little Kanawha valley is one of the most fertile fields in the state, he said, and at present is not tapped by any railroad line. A system of locks and dams would make the river navigable, and open the coal fields in the valley to the world, he declared.

**SAVE YOUR MEAT**

There has been a great many pounds of meat spoiled in the past few years caused by the owners not taking the necessary precaution to preserve it. The old smoking process always kept the meat from spoiling and gave it a flavor which added materially to its taste you can get this same flavor and the same results by using WALLACE'S Brand Concentrated Liquid Smoke. This preparation comes in quart bottles, and is applied with a brush to the meat after it is thoroughly cured (either by the dry or pickling process). Special directions on each bottle. The price is \$1.00 per quart it will smoke a barrel of meat. If your dealer hasn't got it, he will get it for you.
